- Chieftain's dam is one of the prolific donors at Quaker Hill.
- He is a high performance sire that is at the top of the breed for Ribeye area and the \$B index.
- Use Chieftain to add performance and carcass merit while maintaining a moderate birth weight and mature height.

- Black Onyx is now progeny proven to be one of the best low BW, high WW sires within the Angus breed.
- His ability to be used on heifers with top 3% weaning and yearling weight makes him useful in both commercial and registered settings.
- He has proven performance genetics stacked throughout his pedigree making him a great option to add stature and style to cattle needing some elevation.

- Big Stuff is an "All In" son out of a very productive full sister to Rampage with a record of 3 @ 85 for BW, 3 @ 109 for WW and 2 @ 104 for YW.
- He is a balanced calving ease sire that excels for performance and endpoint traits
- Big Stuff balances up well for the economic indexes with all of them in the top 25 percentile or better.

Breeder/Farmer

Diego is another great addition to our Beef on Dairy portfolio from the Blackhaugh herd. Diego combines outstanding growth and performance with positive calving ease. He ranks in the top 5% of the breed for Eye Muscle Area and Terminal Index. He carries a calving EBV of +1.8 so it is predicted Diego will deliver exceptional calf quality whilst maintaining exceptional calving ease.

Breeder/Farmer

Evolution is a fantastic addition to our Aberdeen Angus portfolio. He is the maternal sibling to our CBI proven sire Rawburn Enigmatic, who was recognised for providing exceptional calf quality. We expect Evolution to follow in his brother footsteps, as his EBV's show a Terminal and Self Replacing In-dex in the top 1% of the breed. Evolution is also positive gestation length, which is coupled with great carcase traits, suggesting he will produce average birth weights with exceptional calf quality.
